## **Patient Education on Billing Issues**

As you may know, there are very specific regulations about billing for health care services. As your health care provider, we are obligated to follow those regulations in how we report services provided to you. Additionally, every insurance plan may have different rules that vary from insurer.

- All physicians/providers must report services using a variety of codes to tell the insurance company what was done and why.
- It is not uncommon for patients in the course of a visit to receive management and treatment services for a separate and specific problem, as well as routine or preventive services at the same visit.
- All services must be reported to the insurance company and may result in an additional co-payment or charge as per the insurer's plan rules, which we are obligated to follow.
- There are many different insurance companies and plans; addressing a problem may trigger a co-payment or additional charges to your account.
- Your financial responsibility is determined by the rules of your insurance company, which we are obligated to follow.
- If you have questions, please check with your insurance plan.

We are dedicated to providing the best possible care for you and your family and to being respectful of your time.
